Want a simpler way to connect to meetings when you're on the go? Or do you need an easier way to organize the dial-in numbers and passcodes for several different meetings? Now Mobile Assistant, a free* service from InterCall, gives you one-touch dialing into your conferences from your Android.

It's a situation most of us have experienced—you need to attend a meeting when you are not able to be in a traditional 'office' setting. Whether you're heading to another meeting, don't have access to a landline phone or are called out of the office unexpectedly, you need to join the meeting and need do it while you're on the road. InterCall's latest innovation allows you to access a conference call with a single tap on your Android's screen.

Conferencing for a Mobile World

If you are a frequent traveler or often join meetings while out of the office, InterCall's Mobile Assistant is an easy-to-use solution that will keep you connected.

- + Store an unlimited amount of unique sets of audio conference details—from weekly, recurring meetings to one time calls you need to attend while mobile.
- + Dial into your conference automatically with a single tap on your screen. You no longer need to enter long dial-in numbers, conference codes and leader PINs.
- + Save your meeting access information in numerous profiles to start the meeting as a leader or join as a participant.
- + Integrates with InterCall's Reservationless-Plus audio conferencing service on Android OS 2.1 or higher.

Are you ready to make joining your on-the-go meetings easier? Visit <http://www.intercall.com/tools/mobile-assistant.php> to download Mobile Assistant for Android today!
