

Mobile Assistant

Want a simpler way to connect to meetings when you're on the go? Or do you need an easier way to organize the dial-in numbers and passcodes for several different meetings? Mobile Assistant, a free* service from InterCall, gives you one-touch dialing into your conferences from your mobile phone.

It's a situation most of us have experienced—you need to attend a meeting when you are unable to be in a traditional 'office' setting. Whether you're heading to another meeting, have no access to a landline phone or are called out of the office unexpectedly, you need to join the meeting even while you're on the road. InterCall's Mobile Assistant allows you to do just this and access a conference call with the click of a button or a tap of the screen on your mobile phone.

Conferencing for a Mobile World

If you are a frequent traveler or often join meetings while out of the office, InterCall's Mobile Assistant is an easy-to-use solution that will keep you connected.

- + Support for numerous phones, including iPhone, BlackBerry and Android.
- + Store hundreds of unique sets of audio conference details—from weekly, recurring meetings to one time calls you need to attend while mobile.
- + Start and join InterCall audio conferences with the push of a button or tap of your screen. You no longer need to enter your dial-in number, conference code and leader PIN. In addition, store your security passcode in select mobile phones.
- + Join audio conferences as a participant or a leader. You indicate the details when creating the profiles.
- + Store billing reference codes for your audio conferences for easier monitoring.

Are you ready to make joining your on-the-go meetings easier? [Download Now!](#)
