

# Reservationless Video User Guide

## For more information:

800.603.9402  
www.intercall.com  
info@intercall.com

InterCall Reservationless Video provides an on-demand solution allowing you to initiate a video conference call 24/7 without the need to make a reservation or rely on an operator.

## Starting a Reservationless Video Call

- 1 Give your participants the date and time of your video conference call, your ISDN or IP dial-in information and the Gatekeeper IP address for public IP registration\*.
  - \*Successful registration with the InterCall video gatekeeper is required for public IP dialing.
- 2 Give your participants your permanent meeting room ID and current conference code.
- 3 At the specified time, dial your Reservationless dial-in number with your DTMF enabled remote.
- 4 When prompted, and after enabling DTMF tones on your remote, enter your meeting room ID followed by #.
- 5 When prompted, enter your conference code followed by #.
- 6 When prompted, press \* to identify yourself as the leader, then enter your leader PIN followed by #.
- 7 Once you join as the leader, your conference will start. Whatever conference settings you specified for your meeting room will be enabled at this time.

## Joining a Reservationless Video Call

- 1 At the specified time, dial your Reservationless dial-in number with your DTMF-enabled remote.
- 2 When prompted, and after enabling DTMF tones on your remote, enter your meeting room ID followed by #.
- 3 When prompted, enter your conference code followed by #.

## Add Reservationless-Plus Audio to your video profile\*

- 1 Add your Reservationless-Plus Toll Free number to your reservationless video profile, along with your pass code and leader PIN.
- 2 Check the “**Automatically dial out to ResPlus Audio**” box (note that you can uncheck the box and your conference code information will remain in the profile).

 InterCall is a subsidiary of West Corporation

AAP/EOE

- 3 When you connect to your Reservationless Video account as a leader and the ” **Automatically dial out to ResPlus Audio**” box is checked, your Reservationless-Plus Audio account will be automatically joined to the call (note that your DTMF remote will not be able to pass any tones to the Reservationless-Plus audio bridge, so in order to interact with your audio account you will need to dial in directly to that account with your touch-tone enabled phone)

*\*This feature is only available for InterCall’s Reservationless-Plus Audio, and has not been tested with any other audio conferencing solution.*

## DTMF Remote Keypad Commands

Control you video conference call with a touch of a button on your DTMF-enabled remote or on your keypad if you joined as an audio-only participant.

*0	Operator assistance – conference
00	Operator assistance – individual
*5 / #5	Mute/unmute all lines except leader's - leader only
*6 / #6	Mute/unmute your own line
*7 / #7	Lock/unlock conference (including operator) - leader only
**	List available keypad commands

Please Note: The above commands are the default commands available on all Reservationless Video accounts and may not be customized.
