*Web conferencing solutions from InterCall.  
We have more services that make your  
everyday meetings and events more  
engaging and successful.*

# Web Conferencing Solutions

When you need to collaborate on a project, train people on a new application or launch a product to prospects, you could get everyone on the phone and review printed slides or travel the globe for in-person meetings. However, if you really want to connect with your audience and have them truly understand what you are talking about, bridge the gap by incorporating web conferencing.

Joining everyone in an online conference engages your participants, encourages interaction and makes your meetings more successful.

## I N T E G R A T E D   C O N F E R E N C I N G

InterCall offers comprehensive and interactive conferencing solutions to help you deliver your presentation easily and professionally. No matter the purpose or size of your meeting, we have a web conferencing service tailored to meet your needs. Through our proprietary products, as well as strategic partnerships with WebEx™ and Microsoft®, you get multiple conferencing options and greater flexibility.

Our customized solutions are specifically designed for everyday meetings, training

sessions, seminars and announcements; each one has a unique set of features to give your message more impact. And all of our services are integrated with our audio conferencing platforms, which provides truly seamless collaboration and service

delivery. From collecting registration information to holding breakout sessions, sharing video and showing multimedia presentations to accessing detailed reports and obtaining transcriptions, InterCall has the extra services and features you need to get everything you want out of your conference.

## More Options +

For interactive meetings, online training sessions or powerful multimedia presentations, you can trust InterCall to provide reliable, flexible and easy-to-use web conferencing services. We have more solutions, more personal attention and more experience that ensures your meetings and events go off without a hitch.

- + **InterCall Web Meeting**—enable better interaction and meet more often using InterCall Web Meeting. It brings you a unified, collaborative meeting experience by integrating audio, web and video conferencing into one easy-to-use service. Everyday meetings and collaboration are simple with one-click entry that automatically links all three services together. If you host webinars or larger meetings, InterCall Web Meeting has powerful tools to help you invite participants, track registrations and report attendance, so it is simple to plan and manage your event.
- + **Microsoft® Office Live Meeting**, offered by *InterCall*—host online meetings using the web conferencing tool that is fully integrated with your entire Microsoft Office suite. Office Live Meeting gives you a flexible tool that suits the needs of all your meetings—large or small.
- + **MeetingCenter™**, powered by *WebEx*—meet with people around the globe with a tried-and-true service that is the world's most commonly used web conferencing tool. The interface is familiar and reliable, allowing you to have more productive meetings.
- + **Mshow®**—connect with up to 10,000 people anywhere in the world with our high-bandwidth virtual event platform. To make your event more powerful, you can include different media, such as animation, embedded video, audio and Flash, or even integrate with high-quality live video streams.
- + **EventCenter™**, powered by *WebEx*—get everything you need to manage your online marketing seminars. EventCenter gives you all the tools you need to invite participants, manage their registrations, prepare for your event, share your presentation and follow-up with your attendees.
- + **TrainingCenter**, powered by *WebEx*—deliver live, interactive training sessions with tools specifically designed with the virtual classroom in mind. In addition to sharing presentations or demonstrating applications, you can conduct quizzes online, separate trainees into work groups for collaborative projects and host post-training tests for follow-up.
- + **SupportCenter**, powered by *WebEx*—let your technical support team diagnose and resolve customer problems online. It has all the tools to make them as efficient and effective when working remotely as they would be on-site. Customer files can be transferred for off-line analysis or technicians can actually run customers' desktops and download patches or updates to their computers.

***InterCall's audio conferencing platforms are integrated with all our web conferencing services. This makes your meetings easier to join and manage and gives you more flexibility and features.***

## More Support +

If you're short on time and resources or just want some extra assistance to make sure your event is flawless, InterCall's expert event services team helps you plan, conduct and wrap-up your seminar so you can focus on your message. From recommending appropriate features and conducting rehearsals to monitoring the live event and gathering report information, our dedicated specialists work with you, ensuring a professional and successful event.

## More Success +

When letting people hear your message just isn't enough, InterCall has what you need to take your everyday meetings and high-profile events to the next level. We help you get there with our variety of solutions, personal support, reliable technology and years of experience. Using InterCall's web conferencing services lets you show people what you're talking about, make better connections with your audience and ultimately be more successful.
