

RESERVATIONLESS-PLUSSM CONSECUTIVE INTERPRETATION SERVICES

With the scope of business becoming increasingly international, the reach of conference communications has kept pace to span the globe. As the ability to connect with business associates, employees and other stakeholders worldwide increases, language barriers become more of a business concern. That's why Consecutive Interpretation services are available on Reservationless-PlusSM from InterCall®.

This easy-to-use service allows you to utilize the Dial-Out feature of Reservationless-PlusSM to instantly connect an interpreter to your conference. By pausing every two to three sentences during your conference call, you allow the interpreter time to render your remarks in your participant's language. This consecutive interpretation service enables your participants to listen to the proceedings in both languages, if they desire, in order to fully absorb the ideas and concepts being discussed.
