RESERVATIONLESS-PLUSSM WEB-ENABLED CONFERENCING

Looking to get more than just conversation out of your conference calls? Web-enabled conferencing from Reservationless-PlusSM adds the power of the Internet to your audio call. Reservationless-PlusSM web-enabled conferencing turns your call into a web- and audio-integrated experience that adds impact to your message, increases conference participation and puts you in control with a click of your mouse.

▶ RESERVATIONLESS-PLUSSM WEB ENABLED CONFERENCING ALLOWS YOU TO:

- Keep track of who is on the call – both on the phone and on the web. You'll know exactly who's in attendance by referencing the web moderator's phone and web participant lists.
- Get instant feedback from participants on information presented with Reservationless-PlusSM polling feature. You can prepare polls before the call or create them on the fly.
- Receive questions from participants and address them at an appropriate point during the call.
- Share a PowerPoint presentation with participants using Reservationless-PlusSM web conferencing feature.
- Stream your conference call – with or without slides – over the Internet. Archive the stream for future reference.
- Obtain a record of all submitted questions, participants' conference duration times (on the phone and on the web) and other pertinent information in a post-conference report. The report is automatically sent to you via email shortly after the call's conclusion.
- Schedule your call and send an email notification to participants right from the website with online scheduling and notification feature. Participants receive a Microsoft® Outlook VCS file that books the call in their calendar.
- Turn scheduling and notification into a point-and-click process by downloading your Microsoft® Outlook Contacts file into your Reservationless-PlusSM phone book.

▶ MANAGE YOUR CONFERENCES LIKE NEVER BEFORE

It's so easy to get started – simply navigate your browser to **WWW.RESERVATIONLESS-PLUS.COM**. All you need to use this versatile service is your Reservationless-PlusSM Conference Code or Owner Number and your Leader PIN. From there you can:

SCHEDULE a Reservationless-PlusSM conference call and notify your participants of the details via email

START a Reservationless-PlusSM conference call and dial out to your participants

MONITOR and control a Reservationless-PlusSM conference call

CREATE an archive of web presentations and audio/slide stream

CHECK your Reservationless-PlusSM account status – usage stats, billing info and more

EDIT the default options for your Reservationless-PlusSM audio conference
